Re: Purchased Water Adjustment Clause (PWAC)

3340-AN-23

Dear Ms. Wilke:

Thank you for the request on your behalf dated July 12, 2011, for a PWAC rate change effective August 1, 2011.

We have made the new rates in Schedules Fd-1 and Mg-1 effective for service rendered on and after August 1, 2011, as requested. The new rates have been placed on file as Amendment 23. A copy is enclosed for your records.

The utility is required to notify each customer of this change in rates in accordance with Wis. Admin. Code § PSC 185.33(1)(f).

The utility's current rates and rules must be available for public inspection and review at the utility's office(s) and all bill payment stations pursuant to Wis. Admin. Code § PSC 185.22.

The utility should mark the old rates and rules as superseded and keep them in a separate file. Pursuant to Wis. Admin. Code § PSC 185.19, the utility must keep a file of its previous rates and rules permanently.

If you have any questions, please e-mail me at David.Prochaska@wisconsin.gov or call me at (608) 266-5739.

Sincerely,

David L. Prochaska

Billing: Bills for water service are rendered quarterly and become due and payable upon issuance following the period for which service is rendered. A late payment charge of 1 percent per month will be added to bills not paid within 20 days of issuance. This late payment charge will be applied to the total unpaid balance for utility service, including unpaid late payment charges. This late payment charge is applicable to all customers. The utility customer may be given a written notice that the bill is overdue no sooner than 20 days after the bill is issued. Unless payment or satisfactory arrangement for payment is made within the next 10 days, service may be disconnected pursuant to Wis. Admin. Code ch. PSC 185.

Combined Metering: Volumetric meter readings will be combined for billing if the utility for its own convenience places more than one meter on a single water service lateral. Multiple meters placed for the purpose of identifying water not discharged into the sanitary sewer are not considered for utility convenience and shall not be combined for billing. This requirement does not preclude the utility from combining readings where metering configurations support such an approach. Meter readings from individually metered separate service laterals shall not be combined for billing purposes.
